

FACT SHEET

Gait - delivering quality and service to our customers for 150 years.

2010 sees market leaders Gait celebrating 150 years as manufacturers of a wide range of quality sheet-fed printed materials to national and local Government, public sector, education, transport and commercial markets.

Operating three B1 sheet-fed presses at our Grimsby plant, Gait produces specialist timetables, directories, technical and educational stationery and promotional literature. With the capability to print in single, 2 or 4 colours our modern press room is able to manufacture complex, high quality products in a number of sizes to demanding schedules.

Gait's comprehensive finishing department offers perfect binding and saddle stitching as well as the ability to collate, flatwire, drill and shrink wrap the finished products on-site. We also offer specialist hand finishing for simple, complex or bespoke products.

As a response to our clients' needs for pick and pack services we are able to offer a large warehouse facility where we have the capacity to store products once printed, and then distribute them to client requirements. Gait is located close to major motorway routes and networks for fast distribution.

STANDARDS

ISO 9001 - Quality Assurance
ISO 14001 - Environmental Management
OHSAS 18001 - Health & Safety
FSC Forest Stewardship Council
PEFC Programme for the Endorsement of Forest Certification
