

FACT SHEET

Grange is an award winning B1 sheet-fed printing company located on the South Coast. With seven of the latest Perfector presses producing up to 10 colours, extensive in-house saddle stitching and perfect binding capabilities, we are totally geared to the demands of producing high quality, fast turnaround products. We are a leader in short to medium run magazine production, printing over 150 business-to-business and special interest publications per month, and also produce high quality literature for the commercial print market such as catalogues and marketing brochures.

From print and finishing to fulfillment and mailing, Grange provides a total solution. We also offer a premier cover printing service with two dedicated presses featuring in-line UV varnishing to further enhance your printed products. We work closely with our sister company Heron – a web offset superplant located in Essex, producing high quality covers for a wide range of clients and publishers.

We also partner with Worldwide Mailing Solutions who are situated minutes from our plant enabling us to offer fast, responsive fulfilment and mailing solutions for publications and catalogues. Services range from database management and personalisation to poly-wrapping and inkjetting, coupled with a wide range of competitive mailing services including Mailsort and Presstream for the UK and overseas markets.

Modern press and finishing capabilities combined with exemplary customer service is undoubtedly the reason why our clients continue to choose Grange as their sheet-fed printing partner.
