

FACT SHEET

Heron is one of the UK's largest and most advanced web offset plants with unrivalled manufacturing firepower. Five high speed web presses produce 12pp to 72pp sections using closed loop colour control, coupled with five stitching and four perfect binding lines.

Our forte is producing time sensitive magazines and catalogues to complex print, finishing and delivery schedules and we work closely with specialist cover printer Impact to provide a one-stop-shop solution. Your publications will be handled by dedicated account managers, sensitive to your individual needs and committed to ensuring the smooth running of your titles throughout the production process.

Utilising our technologies such as Agfa :Portal (Delano), you can benefit from the latest possible deadlines. Upload advertising and editorial pages from anywhere in the world, then proof and approve on-line. Pages are automatically delivered into our production workflow in one seamless process.

Exceptional firepower in the bindery enables us to provide valuable extra contingency and the ability to cope with larger paginations. A wide range of value added print innovations give your publications a competitive edge, with in-line capability for products such as tip-on cards, magna strips, perfume sachets, and loose inserts. We also offer an unmatched range of polywrapping and mailing services, specialist and hand finishing options. With our service options your time sensitive products can be printed, fulfilled and delivered to the most demanding schedules.

STANDARDS

ISO 9001 Quality Assurance
ISO 14001 Environmental Management
OHSAS 18001 Health and Safety
FSC Forest Stewardship Council
PEFC Programme for the Endorsement of Forest Certification

PLANT HIGHLIGHTS

PRE-PRESS

Agfa :Apogee Portal 6

Project Management System with on-line customer approval

Agfa :Apogee Pre-Press 6 PDF

Workflow

1 x Printdrive, 2 x Renderers

Imaging:

2 x Agfa :Avalon N36 Platemaking Systems

Data Communications:

We can accept files through the Internet via VIO Tracksend and FTP. A Data Drop service is also located at www.wyndeham.co.uk

PROOFING AND PRESS CALIBRATION

Proofing: Agfa Sherpamatic double sided HP 3500 CP inkjet, Epson Pro 4800, Colourworx Laser Proofing

Certifiable Contract Proofing to ISO/DP Euro: We have our own in-house certifiable contract proofing system which outputs proofs certified by the inclusion of a Fogra media wedge in harmony with the calibrated press targets

Press Calibration to ISO/DP Euro: All presses are calibrated to ISO 12647/2 characterisations and DP Euro providing colour consistency across presses and print sites

PRINTING PLANT

MAN Roland Lithoman IV: 4 unit single web 64/72 page press with the latest closed loop colour control systems (Cut off 630mm, Web Width 1980mm max: 870mm min) A3, A4 production

MAN Roland Lithoman IV: 4 unit single web 64 page press with the latest closed loop colour control systems (Cut off 620mm, Web Width 1980mm max: 870mm min) A3, A4 production

3 x MAN Roland Rotoman N: 8 unit double stacked, 32 page press (NB: One press is fitted with closed loop colour control) (Cut off 630mm, Web Width 965mm max: 600mm min) A3, A4, A5 production

BINDERY

2 x 18 Station Muller Corona Perfect Binders 6 station in line (bi-liner) inserting, strapping & shrink wrapping, automatic tip on card feeder and "static" nailing capability

1 x 15 Station Norm Binder with 5 station in line inserting, strapping and shrink wrapping

1 x 10 Station Norm Binder with 6 loose in line inserting, strapping, shrink wrapping and automatic tip on card feeder

1 x 10 Station Muller Prima Stitching line A3, A4, A5 production

2 x 6 Station Muller Prima Stitching line A3, A4, A5 production. 5 station in line inserting, strapping & shrink wrapping

2 x 8 Station Muller Tempo High Speed Stitching lines. A4 production only. 6 station in line Bi-liner inserting, automated strapping & shrink wrapping, in-line card gluing

Stahl Folding machine with in line gluing facilities

2 x Programmatic Guillotines
