

FACT SHEET

For 6 colour web offset printing that makes a lasting impression, Impact is in a class of its own. The company has developed an unrivalled reputation for the production of premier quality magazine covers, and is proud to produce covers for many of the UK's leading consumer magazine brands such as IPC Media, Haymarket, The National Magazine Company and Bauer Media.

As a sister company to Heron and Southernprint, the businesses work in partnership to provide a one-stop-shop cover and text printing service, bringing additional benefits such as a dedicated account management structure supported by our focussed and highly skilled print technical team.

Our 8pp, 12pp and 16pp 6 colour web presses give you the flexibility and reliability you require from a print partner. This line up of presses - unique from any other printer in the UK, provides the opportunity to add fluorescent and metallic colours as well as UV varnishing in-line, further enhancing your printed products. Corporate colours and brand awareness are important to many of our clients and this colour consistency is achieved by utilising the extra 5th and 6th units on the press.

In addition to producing magazine front covers we also specialise in one off supplements, exhibition guides and general commercial brochures and leaflets. With additional capabilities such as spine glueing, rotary trimming, folding and saddle stitching, we can print, finish and distribute to your exact deadlines.

STANDARDS

ISO 14001 Environmental Management
FSC Forest Stewardship Council
PEFC Programme for the Endorsement of Forest Certification
ISO 9001 Quality Assurance - in progress.
OHSAS 18001 Health & Safety - in progress.
